

FINISHES INFORMATION

All our products are manufactured using 18 & 25mm thick Melamine Faced Chipboard (MFC) sourced from across the world for optimum quality. An impressive Selection of 17 board finishes and 21 Receptiv modesty panel finishes are available.

All desking, storage & pedestal tops are finished with 2mm PVC heavy duty edging tape.

Receptiv modesty panels are manufactured from 3mm hardboard and available in 21 board finishes. (17 standard board finishes as well as the 4 shown across)

*** PLEASE NOTE - Slate hardboard is a lighter shade than the 25mm & 18mm MFC finish ***

Colours 'two toned' storage is available with a choice of 17 board finishes for fascias, doors and carcass for 2017.

Plywood edging is now available upon request on selected Imperial products. For more information please contact our Specials Department for your quotation.

FURNITURE MAINTENANCE

During the development stages of our Furniture Ranges we have taken great consideration to reducing the maintenance aspect of our products and therefore have only chosen construction methods, materials and finishes to suit your busy office environment. Also to be mentioned is that all our products are covered by our warranty that should give you peace of mind for at least 5 years unless otherwise stated.

However it would be wise to keep an eye on the products on a regular basis to ensure a clean and safe working environment. Therefore we have come up with a recommended procedure to be followed:

The melamine-faced chipboard (MFC) used is the most practical & low maintenance material for an office environment. Its strong points are as follows:

- Scratch resistant
- Resistant to household cleaning products and chemicals
- Resistant to cigarette burns
- Colour-fastness under artificial light
- Resistant to cracking
- Impact resistant
- Abrasion resistant
- Ease of maintenance
- Hygienic surface

So with this in mind, MFC only needs to be dusted down and wiped clean with lukewarm soapy water. No waxing, de-waxing, polishing or any other surface treatment is required.

Our metalwork is powder coated and resistant to minor scratching, chipping, abrasions, cracking, and daily wear and tear and therefore only requires regular dusting and perhaps being washed down with lukewarm soapy water. No strong detergents are required. Other metals used are chrome and zinc and nickel-plated with the same maintenance requirements as for the powder-coated metals.

TO SUMMARISE:

CLEANING

Once weekly dust and wipe down surfaces with just a cloth and warm soapy water.

STRUCTURAL

Once a month inspect furniture for any loose 'fixings' (screws, nuts, bolts, handles, etc) and tighten if required or report to your superior to be attended to either by the maintenance crew or supplier.

Once a month inspect furniture for any defects, faults in 'moving components' (hinges, runners, castors, locks, tambour doors, etc) and report to your superior to be attended to either by the maintenance crew or supplier.

Should you for any reason require further assistance regarding the maintenance of our products please consult your Supplier/Dealer you bought the furniture from or alternatively contact us

(the manufacturer direct on Tel: 01204 364602 or go to our website: www.imperialfurniture.co.uk)
